

Marc Anthony D. Dizon

Marc currently holds the position of AVP Operations for Fast Cold Chain Solutions, Inc., a subsidiary of the Fast Logistics Group. The cold chain team of Fast operates 30,000 pallet positions in three (3) different locations, offering full third-party temperature-controlled logistics and transport services to the food manufacturing and food importation industries, as well as to the institutional, retail and the pharmaceutical sector.

In addition to his current duties with Fast, he also serves as the Technical Consultant for the Cold Chain Association of the Philippines and the Technical Lead for the Cold Chain Emerging Market Program Southeast Asia Cold Chain Project (Thailand, Cambodia and Vietnam) of the United States Department of Agriculture.

During the pandemic, he was appointed as Vaccine Logistics Advisor for the U.S. NGO Strengthening Urban Resilience for Growth and Equity (SURGE) for the cold chain management and distribution of the COVID-19 vaccines in Visayas and Mindanao.

A product of the University of the Philippines, De La Salle University and the Armed Forces of the Philippines, Civil Military Operations School, Marc pushes it forward in the field of education as a lecturer for both Supply Chain Management and Cold Chain Management at the University of Makati and the Jose Rizal University.
