Opening of ASEAN-India Regional Office (AIRO)

We, Japan Transport and Tourism Research Institute (JTTRI), would like to inform you that ASEAN-India Regional Office (AIRO) has been just opened in Bangkok, Thailand today, following the receipt of a permit from the Thai government for activities of AIRO on February 23. We would like to express our sincere gratitude to the Nippon Foundation, the Royal Thai Government, the Ministry of Land, Infrastructure, Transport and Tourism of Japan, the Ministry of Foreign Affairs of Japan, and other related organizations for their support and cooperation in the process of opening the office.

Based in Bangkok, AIRO is committed to making a "useful" and "usable" contribution to the real world through well-designed activities in the fields of transport and tourism, giving enough consideration to the needs of Southeast and South Asian countries.

To this end, as a think tank in the field of transport and tourism, AIRO together with Japan International Transport and Tourism Institute in Washington, D.C., USA (JITTI USA, established in 1991) and JTTRI in Tokyo as a headquarter, will work in unison to enhance and strengthen its international contributions and cooperation. I hope you would kindly support for, and cooperate to, AIRO that has been just getting started.
