

## JTTRI International Seminar

### on Railway and Area Development in Jakarta

1. Date & Time: Friday, February 14, 2020 08:30~11:30

2. Venue: Grand on Thamrin 1, 1<sup>st</sup> Fl, PULLMAN JAKARTA

INDONESIA (Jakarta)

3. Outline of the Seminar:

In metropolises in ASEAN countries which are confronted with various problems such as road congestion and environmental pollution, railway development projects have been moving forward. In Jakarta, Jakarta MRT subway and other Light Rail Transit Lines are also moving forward.

For the sustainable railway development, it is effective to comprehensively consider railway development and development of areas along the railways and Japan has a lot of knowledge and experience of such railway development and area development.

In this seminar, Japanese knowledge and experience of railway and area development in Japan and the latest worldwide information in these topics will be shared, and measures for solving the aforementioned problems will be considered through a panel discussion.
