Prerna Bhargava

Assistant Director, Hydrogen Strategy,
Department of Industry, Science, Energy and Resources,
Australian Government

Background in renewable energy systems engineering.

Started career working at the Clean Energy Regulator undertaking market analysis on renewable energy trends and Australia's Renewable Energy Target.

Has been with the Hydrogen Strategy team of the Department of Industry, Science, Energy and Resources since late 2020 where focus has been on delivering priority actions under the National Hydrogen Strategy including leading the development of the inaugural 'State of Hydrogen' report.

Has been leading Australia's work on developing a Guarantee of Origin certification scheme.
